1) Editor's Greeting:

Hello everyone, and welcome to our new subscribers!

This is our fourth monthly Newsletter for our new site, EducationOnlineForComputers.com, giving you the most current Free online Software Training and Tutorial Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing (instructions at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of EducationOnlineForComputers.com costs only \$14 for two months, for more information please see below 'Become a Member of EducationOnlineForComputers.com'.

My desire is that these free resources will help you with your computer education and training and are tools to advance your career. Our main mission is the training of those less fortunate who are seeking to become computer literate, from a user's perspective.

By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do. The best of these resources will be added to our Member Training pages and the remainder to our Free Training pages.

*** Current Issue ***

This issue describes a total of 22 Software and Computer training, learning and tutorial

web sites, with a total of 109 tutorial courses linked. It features many free Microsoft Office training video modules. This content is some of the best free software training available on the web today.
